SendQuick® Alerter

4G Modem

2-Way SMS

Switch

Firewall

Router

Social Messengers and Collaboration Tools

Branch Office Networks

Internet

Network Infrastructure
- Back Up Power (UPS) Management Systems
- EMS, NMS, DCIM System

Applications
- Database Servers
- CRM/ERP/POS Accounting Systems
- Supply Chain Management Systems

Security
- IPS — Intrusion Prevention Systems
- Anti Virus Servers
- Network Access Management
- Security Event & Incident Management (SEIM)

KEY FEATURES

- Easy to set up
- Support unlimited numbers of firewall, IPS, anti-virus, UPS, network monitoring system, database and other servers
- Support all types of email alerts (SMTP), Syslog and SNMP Trap messages for events and converting them to SMS
- Support system monitoring (Ping) with SMS alert to ensure server availability
- Fast throughput (up to 20 messages per minute, per modem)
- Hassle free integration (to unlimited number of back-end applications and processes)
- Dual integration method: via email or HTTP Post (REST API) for sending and receiving SMS
- All messages are date / time stamped for monitoring and tracking purposes
- Highly scalable supporting up to 32 modems and direct connection to mobile operators
- Built-in SMTP email gateway and email relay function to serve as a back-up email gateway for the enterprise
- No maintenance and administration
- 2-way SMS communication
- Plug-and-play into your network (LAN)
- Auto load handling and auto message distribution for efficient message receiving and sending
- Telco-independent (the GSM modem can send to all mobile operators with SMS interoperability)
- Messaging delivery options including SMS SIM, telco connections and messengers.
- 24 x 7 x 365 operations

Get Instant and Concise Alerts

Do you want to streamline your business messaging, communication, and customer relationship management processes? Would you prefer a entry-level appliance for quick and concise alerts, compared to setting up an SMS server from scratch?

Join the ranks of successful corporations leveraging short message (SMS) and omnichannel social messengers for simple messaging, communication, customer relationship management, e-commerce, and transactions. Experience the power of quick and concise alerts with SendQuick Alerter, the affordable entry-level appliance designed for companies seeking straightforward alert functionality.

SendQuick Alerter seamlessly works with your firewall, IDS/IDP, antivirus, server monitoring software, and more. It comes packed with essential features that effortlessly convert email alert messages from your monitoring and security infrastructure to SMS or social messengers. Stay informed about critical events in your office and data centres with instant and concise information.

Why waste your time and resources setting up an SMS server? At SendQuick, we have simplified the process for you. SendQuick Alerter is an out-of-the-box appliance server, delivering the fastest and most economical way to get your SMS server up and running within minutes. No complicated setup or configuration required!

COMPLEMENT YOUR SYSTEMS

SendQuick® Alerter server is ideal for your IT / security infrastructure or datacentre. It will complement your infrastructure system like:
• Router
• Intelligent switch
• Firewall
• Intrusion detection / prevention system
• Anti-virus server
• Network monitoring systems
• Infrastructure monitoring systems
• Security monitoring systems
• Back-up power management system (UPS)
• Cabling management systems
• Environment management systems

BENEFITS

• Instant alert on SMS, reducing down-time
• SMS is delivered anytime, anywhere (even when you are overseas!)
• Get SMS reply from your support team for acknowledgement
• Selective SMS alert (with filter) and only the important events
• SMS store & forward, with guaranteed delivery (network dependant)
• Send multiple SMS for each alert to different people
• Support unlimited applications, devices and servers (good ROI)

USERS

• Banks / Insurance / Financial Institutions
• Stock Exchange
• Stock (Securities) Broking Firms
• Government
• Asset / Fund Management
• Telecoms / Operators
• Travel related companies
• Hotels and service-based companies
• MNCs / Factories
• All companies concern with security and system uptime

INTEGRATION WITH SOCIAL MESSENGERS

SendQuick integrates with existing applications to send messages instantly via SMS, email and social messengers:

WhatsApp   WeChat   Line   Telegram   Facebook Messenger   Viber   Slack   Microsoft Teams   Cisco Webex

SUPPORTED PLATFORMS

Appliance   Cloud   Virtual Machine

Complement Your Network and IT Infrastructure

SendQuick® Alerter provides instant and concise SMS alerts on the events happening in your office and data centers.

HARDWARE SPECIFICATIONS
